

Model Railroad Club Information

The Brittany Pointe Model Railroad Club meets the second Wednesday of each month at 1:30 p.m. in the Brittany Pointe Estates Residents Association office. They are in the process of constructing a permanent HO Layout in the Train Room which is located just outside of the Furniture Gallery. The layout will be constructed in several phases, with the members working each week. This club is made up of both men and women who are interested in trains, train layouts, scenery, electrical work, construction of the base for the platform, and computer layouts. This group is open to all residents of any ACTS community, as well as any person who is on the waiting list. Sidewalk construction engineers can view the progress outside the windows of the Train Room.
