SUBJECT: DINING ROOM RENOVATIONS

The time has come to begin phase I of our Lafayette **Room renovations!**
Phase I will begin on Monday March 10th.

During Phase I our nook area will be closed as well as our electric cart storage room. The Versailles Room will not be available during renovations. Tables and chairs will be removed from the nook on Friday March 7th. With this decreased number of seats, there may be intermittent wait for tables depending on flow of diners. Please know that there are usually several tables available in the café fountain area and we encourage you to dine there periodically.

We will be designating two spaces in the lower lobby for cart storage. We would ask that the area closest to the dining room be used by those residents with the greatest need to be close to the entrance. Staff will be on hand to direct cart users on Monday evening. Our salad bar will be unavailable during both phase I and phase II of the project. There will be a menu of salad selections as well as some specialty salads available.

We recognize that this renovation will bring minor inconveniences but the end product will be well worth it. We of course appreciate your patience and understanding as we improve our physical plant for you and for our future residents.

Should you have any questions please do not hesitate to contact me. Thank you very much for your cooperation.
