~Director's Note~

This show is dedicated to the residents and staff at Brittany Pointe. It was through their dedication, creativity and perseverance that this show came to fruition.

The cast, which numbered nearly 100, worked tirelessly writing, planning, rehearsing, and directing, all while keeping safe and distanced. They were determined to create a theater production during a very difficult time and this show is the result of that persistence.

This was an undertaking like no other. With over a dozen theater presentations under our belts, none of us had ever created a full-length movie! Special thanks to our videography crew which was diverse and multi-generational! Dave Alburger headed up this team, consisting of resident Mary Ellen Spruell, Dave's brother Ric Alburger, and the great-nephew of resident Fran Glica, Ryan Fitzpatrick. Ryan is a theater major in college, home for the summer.

I would also like to thank my husband Dave Alburger for the countless hours spent editing and creating this production.

A huge thank you to my production team for the tireless work and dedication in this endeavor: Tom Brennan, Darryl Lang, Barbara Parsons, Phyllis Eckelmeyer, Barbara Green.

And most of all, thank you to the greatest stage manager ever, Margie O'Malley.

The concept for a movie rather than a live-action show originated at the beginning of 2021. Nine months later, we present to you our "baby!"

We hope you enjoy it!

Terry Alburger
